

shell_volume

```
graph LR; A[shell_volume] --> B[comoving_radial_distance]
```

A diagram showing a relationship between two variables. On the left, a gray rectangular box contains the text 'shell_volume'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'comoving_radial_distance'. Both boxes have a black border.
